WAIVER OF 14-DAY COOLING-OFF PERIOD

Express Request for Early Commencement of Solar PV and Battery Installation Works

This form should only be completed if you wish your solar installation to begin before the end of your 14-day cancellation ("cooling-off") period. You are under no obligation to sign this waiver, and choosing not to sign it will not affect your order – it simply means installation will be scheduled after your cooling-off period has ended.

1. Your Right to Cancel

Under the Consumer Contracts (Information, Cancellation and Additional Charges) Regulations 2013, where your contract was concluded off-premises or at a distance, you have the right to cancel your contract without giving any reason within 14 days beginning the day after the contract was entered into (and, in respect of goods, the day after delivery).

2. Your Request for Early Commencement

By signing this waiver, you expressly request that Margav Solar (Margav Renewables Ltd) begins the supply and installation of your solar PV system, any battery storage and associated works before the expiry of your 14-day cancellation period.

You acknowledge and agree that:

- You have expressly requested, in writing by signing this form, that the works commence before the end of the cancellation period.
- If you later cancel the contract during the cancellation period after works have begun, you will be liable to pay an amount proportionate to the works carried out and materials supplied up to the point you told us of your cancellation, in comparison with the full contract price.
- Once the installation service has been fully performed, you will lose your right to cancel the contract, even if the 14-day period has not yet expired.
- Goods that have been installed, made to your specification, or mixed inseparably with other items (for example, mounting systems, cabling, inverters and batteries integrated into your property) cannot be returned under the standard cancellation right.
- Your statutory rights in respect of faulty goods or services performed without reasonable care and skill under the Consumer Rights Act 2015 are not affected by this waiver.

3. Customer Declaration

I confirm that I have read and understood the information above. I expressly request that Margav Solar (Margav Renewables Ltd) commences the solar PV and battery installation works at my property before the expiry of my 14-day cooling-off period, and I understand the consequences of this request as set out in section 2.
