02 Property details

Property Info *

- ◯ Bungalow
- ◯ Semi-Detached
- ◯ Detached
- ◯ Terraced
- ◯ Park Home
- ◯ Other

Is there Rear Access to the Property? *

- ◯ Yes
- ◯ No

Please let us know if you are able to access the rear of your property - this is so that we can take materials and scaffolding to the rear (if

required).

Does the Property Have Wi-Fi? *

- ◯ Yes
- ◯ No

Are there any pets at the property? *

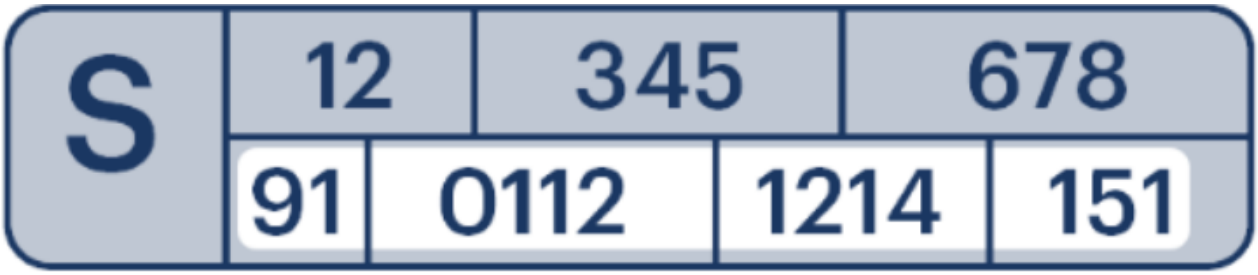

- ◯ Yes
- ◯ No

Existing EV charger *

- ◯ Yes
- ◯ No

Existing Solar PV or EESS (battery storage) *

- ◯ Yes
- ◯ No

MPAN *

Find the MPAN on your electricity bill or statement. Enter the 13 digits from the four white sections along the bottom of the example, reading left to right, without spaces. Do not include the "S" or any numbers from the top row.

Energy Supplier *

e.g. British Gas, Octopus, EON

Meter Phase Type Optional

If you specifically know this, tell us. Otherwise we can get this information from your image uploads.

How many separate roofs will have panels? *

- ◯ 1
- ◯ 2
- ◯ 3

Count the main house, an extension or a garage separately. Several panel arrays on the same roof count as one roof. Select 3 if there are more, then record the extra roofs at the end of Roof C.

03

Roof A

Complete this section once for the roof, covering all of its panel arrays.

Which roof is this? *

Main house - arrays 1, 2 and 3

For example: main house, rear extension or garage. Add array numbers if they are shown on the design.

Height of this roof *

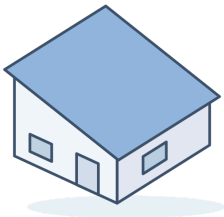

- ◯ One Storey
- ◯ Two Storey
- ◯ Three Storey
- ◯ Four Storey
- ◯ Commercial (Add Height to Notes)

Use this part of the building, so a single-storey extension can differ from the main house.

Roof shape *

Flat

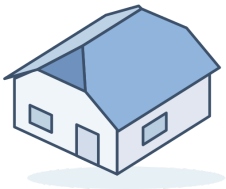

Mono Pitch

Gable

Hipped

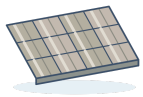

Half Hipped

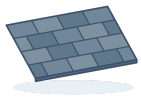

Cross Gabled

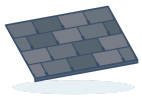

Choose the shape of this roof. Its different faces can share this roof record.

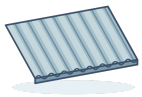

Roof covering *

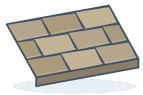

Concrete

Rosemary

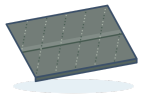

Slate

Shingles

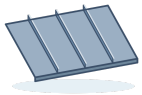

Corrugated

Stone

Fibreglass

Felt

Rubber

Metal

Choose the covering on this roof. Note any areas with a different covering in Roof notes.

Is any covering suspected to contain asbestos? * ○ Yes ○ No ○ Unknown

Are there rooms within this roof? * ○ Yes ○ No ○ Unknown

Have timbers been cut, removed or notched? * ○ Yes ○ No ○ Unknown

For example, for a dormer, rooflight, hatch or flue.

Has a heavier roof covering replaced the original? * ○ Yes ○ No ○ Unknown

For example, slate replaced with concrete. Choose Unknown if the history is not known.

Any sagging, cracking, water staining or damaged covering? *

- ◯ Yes
- ◯ No
- ◯ Unknown

Put concerns and their locations in Roof notes; include them in your roof photos.

Roof and access photos *

PHOTOS

Show every face receiving panels, the roof covering and any damage. Include access or obstructions relevant to scaffolding. One set covers all arrays on this roof.

Add files

or drop files here

Inside the roof

Can you enter the loft / roof space? *

- ◯ Yes
- ◯ No

Roof notes / exceptions

Optional

Describe any flagged concerns, alterations, covering changes or differences in timber sizes and spans. State what is unknown.

06 Key locations

Electricity Meter Location *

Please accurately describe the room and location of the meter. If outside, specify exactly where it is located.

Consumer Unit / Mains Board Location *

Please accurately describe the room and location of the consumer unit or mains board.

Inverter / Battery Installation Location *

Please list at least two possible outdoor locations where you would like the inverter and battery to be installed.

07 General photo survey

House (Front) * PHOTOS

Take a photo showing the full extent of the front of the property. Use multiple images to capture the whole front of the property.

Add files or drop files here

House (Rear) * PHOTOS

Take a photo showing the full extent of the rear of the property. Use multiple images to capture the whole rear of the property.

Add files or drop files here

House (Side) * PHOTOS

Take a picture of the side of the property - this is used for assessing scaffolding access. Please take multiple photos and pay attention to any gates or restrictions that affect transporting the scaffolding.

Add files or drop files here

Energy Statement / Bill * FILES

Please upload your most recent energy bill, no more than six months old, as a PDF or photograph. It must show the unit rate and estimated 12-month consumption.

Add files or drop files here

Electricity Meter * PHOTOS

This is generally located in your meter box. We need a photo of the box open and closed.

Add files or drop files here

Open Consumer Unit / Mains Board / Fuse Box * PHOTOS

We need a photo of the general location of the consumer unit and an image of the cover of the box open so we can see inside.

Add files or drop files here

Proposed Inverter / Battery Installation Location * PHOTOS / VIDEO

Please take photo(s) or a video of the locations you would like to have the inverter/battery installed.

Add files or drop files here

Wi-Fi Signal Strength at Proposed Inverter/Battery Location Optional PHOTOS

Please use a tool such as Google speed test and then upload a screenshot of the speed at the location.

Add files or drop files here

08 General video survey

Inverter to Meter * VIDEO

Please take a video showing you walking from the outside location(s) you would like the inverter to be installed to your meter location. Please point the camera in front of you and narration is helpful too!

Choose file or drop a file here

External Walkaround * VIDEO

Please take a video of the full property, walking around all access points so that we can understand all aspects of the house.

Choose file or drop a file here

09 Additional images & videos

Pre-Existing Property Damage Optional

PHOTOS / VIDEO

Please take photos of all examples of existing damage to the areas of the property that we will be working at.

Add files or drop files here

Incoming Cables/Utilities Optional

PHOTOS / VIDEO

Please capture images or video of third-party utility lines entering the property, showing where they come from on the street and how they connect to your house. This includes power, telephony and any other service you can see connecting aerially to the house.

Add files or drop files here

Other Images/Video Optional

PHOTOS / VIDEO

The more information you can provide the better - it removes the chance of any surprises on the day!
